

I respectfully urge the FCC to reject the NAB's petition 04-160. To make a long story short, XM is the ONLY radio I now listen to. Its content, format, and quality are so far superior to all other choices there is simply no comparison. I don't wonder why XM's competitors choose to force their mundane and mercilessly commercial programming on a public without choices, but I will wonder why my government might allow itself to be used in such a way. Thank you.
